WILLEIT & GRAY LOOK FOR SEASON OF LOW PRICES

REPORT ON SUGAR MARKET CON-DITIONS FEB. 1.—NON-PRIVIL-EDGED SUGARS SEEKING AMERICAN MARKET.

Willett & Gray's Sugar Trade Jour-nal for Feb. 1 reports as follows on the sugar market. Raws—Wehave to report a further

Raws—Wehave to report a further decline for the week of 1-16c, on spot and 1-32c, on distant sugars. The quotation of 3 1-2c, basis 96 test was established on sale of Porto Rico sugars for prompt delivery.

Early in the week a large business was done in non-privileged centrifugals for February-March shipment at 3 1-2c, landed and, in Cuban sugars for the same shipment at 2 5-31c, c, and f., equal to 3.52c, landed for 96 test, which filled the wants of the largest buyers for the immediate future.

Toward the close pressure exerted by holders led to sales of Cuban centrifugals to the Federal for shipment before February 20 at 2 1-8c, c, and f., equal to 3.48c, landed, at which further sugars are obtainable.

The easier tone is due to a decline

The easter tone is due to a decline of 2 1-4d, in European markets and to favorable Cuban crop reports.

of 2 1-4d, in European markets and to favorable Cuban crop reports.

The late beginning of crop making in Cuba, due to unseasonable rains gave the refiners some concern, recently, as to the supplies for January and early February, but the latest reports from the Island are that the weather has turned fine, except in one locality, and, that the harvesting is now proceeding favorably; the number of centrals grinding increased to 147, being 27 more than last week and the receipts at the principal shipping ports amounted to 37,900 tons, with exports of 29,800 tons, for the week, indicating that the planters are making strong efforts to deliver the sugars previously sold at prices higher than those now current and that abundant supplies for refiners melting requirements are now assured. quirements are now assured.

According to our special report from Havana it is probable that with favorable weather from now on, the Cuban planters will be able to make up for the late start, before the season comes to an end.

Non-privileged sugars are competing keenly with Cuban sugars for this market, the producers realizing that the United States will require, this year, only a limited supply from coun-

of the 43rd anniverscary of the exist ence of the Pythians.

There are now over 600,000 Pythians in the United States, Canada and Ha-wall. Both military and insurance branches of the order are represented here. Oahu Lodge No. 1 is one of the oldest lodges in existence.

The ritualistic work, of course, is based on the story of Damon and Pythias. Of the S5 initiates to be, 55 are for McKinley Lodge, No. 8, 14 for Mystic Lodge, No. 2 and 16 for Oahu Lodge, No. 1. The initiators will be made up of 25 selected men from the three lodges.

Tonight's initiation will be a splen tid and monster affair.

CONTENDS NEW LAW.

(Continued from Page 1)
"In other words," says the brief,
"Under this law the osteopathist, little
more than a massage artist or trained nurse, is free to practice the important art of surgery for which the highest skill, training and knowledge are required, even which cannot be practiced without a broad foundation in pure medicine, in biology, chemistry, and even mechanics and physics, while the ordinary physician must have all these qualifications." It is also shown that any person with such a diploma "may ride full tilt into the hroad field of surgery with license to do anything, and use any method, means or agent, tangible or intangible, except administer drugs or medicines.

The second point raised in the brief is that the amended law does not apply to Dr. McDonald. It states that "the property of the property of the property of the second point raised in the brief is that the amended law does not apply to Dr. McDonald. It states that "the property of the property of the law of the property of the law of the second point raised in the brief is that the amended law does not apply to Dr. McDonald.
